

FOUNDED IN 1945

NICOLAE TESTEMITANU STATE UNIVERSITY OF MEDICINE AND PHARMACY OF THE REPUBLIC OF MOLDOVA

Study **MBBS** in Europe

PROSPECTUS

About MOLDOVA

The Republic of Moldova is a land locked state in Eastern Europe, located between Romania to the west and Ukraine to the north, east and south. It is at the intersection of commercial, cultural and tourist routes, joining the West and the East, the North and the South. It is a country with an interesting and eventful history. Until 1991 Moldova was one of the republics of the former Soviet Union. After becoming an independent state Moldova has joined the other democratic countries and established relations with other them. The Republic of Moldova is a member of the United Nations Organization and complies with all the agreements and conventions regarding human rights and the continuous development of humanity. An effort to integrate into the European Union defines the country's foreign policy guidelines. In 1995 the country became the first post-Soviet state admitted to the Council of Europe. In addition to its participation in NATO's Partnership for Peace program, Moldova is also a member of the OSCE, the North Atlantic Cooperation Council, the World Trade Organization, the International Monetary Fund, the World Bank, the Francophone and the European Bank for Reconstruction and Development.

CHISINAU is the capital of country and the biggest locality of Moldova. While traveling to Moldova, the final destination of foreign new-comers can be the city international airport, train station and bus stations.

MBBS in Nicolae Testemitanu State University of Medicine & Pharmacy

The mission of the Nicolae Testemitanu State University is to provide quality undergraduate doctoral and specialty training as well as post-doctoral continuing education and also conduct world class scientific research. The Institute was established on October 20, 1945 serving as a foundation for the development of higher medical education and enhancement of the health system of the Moldovan Republic. The University teach it's students using modern international training methods and educational concepts with an emphasis on the didactic process and advanced concepts of analysis and synthesis.

Syllabus

Compatible syllabus with USMLE, PLAB etc. and easy for preparing for these exams. Since Moldova has signed up to the Bologna Accord, and has membership in European Higher Education Area, students can transfer credit between any university in Europe as per ECTS (European Credit Transfer and Accumulation system). Moldova is an Associate Member of European Union. So students are eligible to practice in any EU Member country subject to the prevailing rules & regulations.

Rector's Message

Rector, Ion Ababii
Professor, MD, PhD

I'm glad to welcome you to Nicolae Testemitanu State University of Medicine and Pharmacy of the Republic of Moldova (SUMPh) the single institution of higher education in our country that trains specialists in medicine, dentistry and pharmacy. Accredited at the national level and assessed by international bodies, SUMPh offers optimal conditions of undergraduate and postgraduate training. Renowned doctors and experts are ready to present you the great mysteries of medicine and help you become a good specialist. The training process involves advanced methods of teaching-learning-evaluation by using modern technologies. We tend to become one of the best universities in Eastern Europe, an objective that can be achieved together with our staff and students.

Yearly, more than 6000 students from Moldova and from about 30 countries of the world study at Nicolae Testemitanu SUMPh. You are invited to become part of our big family!

Climate

Moldova's climate is moderately continental: the summers are warm and long, with temperatures averaging about 20C, and the winters are relatively mild and dry.

Airport

The closest major airport to Nicolae Testemitanu State University of Medicine is Chisinau International Airport. This airport is in Chisinau, Moldova and is about 15 km from the center of Nicolae Testemitanu State University of Medicine and Pharmacy.

Chisinau Airport is located in the middle of the country, it is Moldova's only international airport. Air Moldova and Fly One have their base at Chisinau International Airport.

Library and Research

Medical library is designed to assist physicians, health professionals, students, patients, medical researchers, and information specialists in finding health and scientific information to improve, update, assess, or evaluate health care. The specialized scientific Councils were approved in the plenary of ISC dated March, 3 2004. University is also into Scientific Manifestations, which they planned for organization. University is also involved in different research and project works.

Accommodation

On arrival at the Chisinau International Airport, foreign students are met by the representatives of the University and accompanied to their lodging. Also upon arrival, foreign students can make international phone calls by using cards that can be purchased at the airport, or from telephone stations located in many places throughout the city, including the neighborhood of the students' campus.

University provides hostel accommodation to all international students immediately after arriving in the country, so it is not necessary to look for accommodation. Separate hostel for boys and girls and there are 16 hostels with single/double/triple persons in a room accommodation. All hostels are equipped with kitchens, shower-rooms, terrace, study rooms, internet and other facilities. Each floor has: a kitchen with all necessary equipment.

Transportation

There are good transport links which assure connection between student's campus and other places in city. There are no public flights within Moldova, because Moldova is a small Republic. Cars, buses and trains are most commonly used. There is no subway system in Chisinau, although there is an extensive bus, trolleybus and mini-bus system which is used by most local residents. Moldova has a comprehensive if confusing network of buses running to most towns and villages.

Student life

Students and medical resident students benefit from the possibility to participate in the activity of scientific research in Moldova. Simultaneously, they are offered a deep knowledge course of international foreign languages, training of specialization and documentation abroad, driving courses, participation in different sport, cultural-artistic activities etc. All these activities are backed up by a well-developed technical and material basis, of a rich fund of medical scientific literature and other modern sources of information, normal living and rest conditions for students, residency owners and teachers.
